

# MultiLogger Suite Release Report

Release: 5.1.5

## Completed Items

Number Entered	Completed	Type	Application	Version	Description	
1377	8-14-2007	7/15/2011	Bug	MultiLogger	5.1.5	When using the Terminal to connect to a K2 and then issuing the ans command and then trying to close the terminal form ML still dials the phone number and does something (issues the ans command again?) before closing the window.
2030	7-15-2011	7-21-2011	Bug	MultiLogger	5.1.5	Fixed several issues with Text Monitor display when running on Non-English locales.
2024	7-1-2011	7-18-2011	Bug	MLGateway	5.1.5	Fix error message bug "Folder Already Exists" when attempting to use Add button of Configure Gateway Folders form and the folder already exists (but no folder.xml is in the folder so it doesn't show automatically in the list). Use the folder as is if it exists
2025	7-1-2011	7-18-2011	Bug	MLGateway	5.1.5	Improve mechanisms that ignore Beacon packets received while sending \$BD sync bytes.
2029	7-15-2011	7-21-2011	Bug	MLGateway	5.1.5	Fixed issue with non-English locales and comma delimited format of collected data.
2005	6-9-2011	6-9-2011	Bug	MLDatabase	9.2.0	Cannot manually add data element in rev18.
2009	6-27-2011	7/15/2011	Bug	MLDatabase	9.2.0	When showing the Set Data Fields form the selected Data Element shown in the background is switched to another element.
2010	6-27-2011	7/15/2011	Bug	MLDatabase	9.2.0	Add import for TDR data.
2034	6-9-2011	8-12-2011	Bug	MLDatabase	9.2.0	Fixed bug with import of other instruments after the TDR waveform array.
1973	4-1-2011	7/15/2011	Bug	Insite	11.1.0	Enter Design Mode. Go to Window List and add a new Group. Change the name of the Group. Click on another Window, dialog pops up to Save Changes. Click Cancel. AV Violation displays.
1988	5-2-2011	5-2-2011	Enhancement	Insite	11.1.0	Configure Elements form now allows editing elements in the grid

# MultiLogger Suite Release Report

Release: 5.1.5

## Completed Items

Number Entered	Completed	Type	Application	Version	Description	
1995	6-1-2011	7/15/2011	Enhancement	Insite	11.1.0	Remove Auto   Fixed from Axis   Display group on Configure Quick Chart and Inclinator to allow using the TeeChart Chart Editor to configure and save the Desired Increment setting for each Axis.
2002	6-1-2011	7/15/2011	Enhancement	Insite	11.1.0	Add TDR output type.
2007	6-13-2011	6-13-2011	Bug	Insite	11.1.0	If you click outside the image on the image window, cursor gets stuck on moving arrows when mouse is moved over the image.
2008	6-22-2011	6-22-2011	Bug	Insite	11.1.0	Element chart does not work if there are spaces or commas in element names
2012	6-27-2011	7/15/2011	Enhancement	Insite	11.1.0	Change name of Configure Output Parameters form to Configure Outputs. Update help topics and menu as well.
2031	6-27-2011	7/18/2011	Enhancement	Insite	11.1.0	Removed Display   Auto/Fixed from Configure Quick Chart and Configure Inclinator form.
2032	6-27-2011	7/18/2011	Enhancement	Insite	11.1.0	Changed radio buttons of axis selector on Configure Quick Chart form to drop-down list.
1997	8-1-2010	7/15/2011	Bug	MLWeb	6.3.0	Some Readings Boxes show in black but are green in Insite.
2020	6-1-2011	7/15/2011	Enhancement	MLWeb	6.3.0	Add TDR output type.
2021	6-1-2011	7/15/2011	Bug	MLWeb	6.3.0	Some reading boxes show data even though no data is loaded into the database.
2017	7-15-2011	7-15-2011	Bug	MLServer	6.3.0	Fixed "Out of memory" errors, which would happen on big databases, if new data points would be coming with dates far in the past together with new data with current dates.
