

MultiLogger Suite Release Report

Release: 5.4.0

Completed Items

Number Entered	Completed	Type	Application	Version	Description	
2305	1-23-2013	1-23-2013	Bug	MultiLogger	5.4.0	Fixed the issue with alarm values not working properly in foreign locales
2308	1-1-2013	4-15-2013	Bug	MultiLogger	5.4.0	When first adding loggers and User Inputs Locations list is blank then set it to the default locations automatically. Also make sure that Auto Configure Locations is enabled.
2309	1-1-2013	1-29-2013	Bug	MultiLogger	5.4.0	When adding COM ports to Network Manager make sure to select the first COM port available instead of default "Com1".
2310	10-19-2012	4-15-2013	Enhancement	MultiLogger	5.4.0	Add support for SYSCOM MR2002 data collection and status retrieval.
2245	10-19-2012	4-15-2013	Enhancement	MLGateway	5.4.0	Add support for SYSCOM MR2002 data collection and status retrieval.
2291	1-15-2013	1-15-2013	Enhancement	MLDatabase	9.5.0	Rewrote import routine to improve performance and reduce amount of committed transactions.
2316	2-6-2013	2-6-2013	Bug	MLDatabase	9.5.0	Clicking on Add Group/Subgroup in a tree and then clicking Cancel would cause Assertion and AV errors.
2319	2-20-2013	2-20-2013	Enhancement	MLDatabase	9.5.0	Moved Automatic Login above Password on database configuration form. Added Remember Password checkbox to login prompt.
2321	3-7-2013	4-1-2013	Enhancement	MLDatabase	9.5.0	Add logic for Instrument record importing to improve performance when importing TDR/Inclinometer data.
2072	11/19/2009	3-20-2013	Enhancement	Insite	12.5.0	Added stratigraphy configuration (bands) to Inclinometer, TDR, Quick and Element charts.
2112	1-30-2012	5-15-2013	Enhancement	Insite	12.5.0	Added ability to auto-generate calculations for new prisms.

MultiLogger Suite Release Report

Release: 5.4.0

Completed Items

Number Entered	Completed	Type	Application	Version	Description	
2192	11/19/2009	1-29-2013	Enhancement	Insite	12.5.0	Add Elevation to TDR configuration form to allow adjusting depths to show as Elevation.
2193	11/19/2009	1-15-2013	Enhancement	Insite	12.5.0	Add option to Applications to apply changes in calculations to all configured calculations.
2254	11-1-2012	11-14-2012	Enhancement	Insite	12.5.0	Added Export button to Chart View form to export chart data to CSV file.
2255	11-14-2012	11-14-2012	Bug	Insite	12.5.0	Fixed "Dataset not in edit or insert mode" error while running certain instrument reports
2258	11-14-2012	11-14-2012	Enhancement	Insite	12.5.0	Added Export button to Quick View form to export chart data to CSV file.
2260	11-14-2012	11-14-2012	Enhancement	Insite	12.5.0	Added filter by name in Quick View with * and ? wildcards
2262	11-14-2012	11-14-2012	Enhancement	Insite	12.5.0	Filter by string properties in Quick View now supports partial search and * and ? wildcards
2263	11-14-2012	11-14-2012	Enhancement	Insite	12.5.0	Added Expand/Collapse All to Quick View tree
2264	11-14-2012	11-14-2012	Enhancement	Insite	12.5.0	Added Find to Quick View tree
2265	11-14-2012	11-14-2012	Enhancement	Insite	12.5.0	Optimized performance of historical function calculations
2268	11-14-2012	11-14-2012	Enhancement	Insite	12.5.0	Added Offset selector to Quick View form. This allows to dynamically select offset from beginning of the period or from initial value for any element charted on Quick View form. Added corresponding Offset function to calculation engine if offset needs to be

MultiLogger Suite Release Report

Release: 5.4.0

Completed Items

Number Entered	Completed	Type	Application	Version	Description	
2270	11-18-2012	11-16-2012	Enhancement	Insite	12.5.0	Added Aggregate functionality to Quick View form
2271	11-18-2012	11-16-2012	Enhancement	Insite	12.5.0	Slope value boxes on Quick View form are now persistent
2272	11-18-2012	11-18-2012	Bug	Insite	12.5.0	Fixed "Evaluator not prepared" error
2273	11-19-2012	11-19-2012	Bug	Insite	12.5.0	Fixed intermittent Access Violation error during TS application update
2274	11-20-2012	11-20-2012	Bug	Insite	12.5.0	Now Quick View chart can show many elements at once (it used to blow up with Out of Memory error).
2275	11-20-2012	11-20-2012	Enhancement	Insite	12.5.0	Changed default series coloring for charts, it used to color first dozen of series, all series above that would be gray. Now all of them will be colored.
2278	11-28-2012	11-28-2012	Enhancement	Insite	12.5.0	Removed nested historical function limitation in the calculation engine
2281	12-5-2012	12-5-2012	Bug	Insite	12.5.0	Fixed the bug where values for prisms would not show on image windows or show incorrectly.
2283	12-5-2012	12-5-2012	Bug	Insite	12.5.0	Fixed the issue when changes in elements would not refresh description boxes.
2284	12-5-2012	12-5-2012	Enhancement	Insite	12.5.0	Converted Show All menu items to separate Show All/Hide All submenus. The way it was working before was very confusing.
2285	12-11-2012	12-11-2012	Enhancement	Insite	12.5.0	If on Output Configuration form for Custom Selection Criteria To field is left empty, it will be calculated from From date to current date.

MultiLogger Suite Release Report

Release: 5.4.0

Completed Items

Number Entered	Completed	Type	Application	Version	Description	
2289	1-14-2013	1-17-2013	Enhancement	Insite	12.5.0	Support Black status color for Update Status for Group or Data Update notifications where data is being imported but it is invalid.
2292	1-15-2013	1-15-2013	Enhancement	Insite	9.5.0	Added Enabled check boxes to custom calculations and properties on TS application customization form, to allow easily turn on/off custom calculations and properties in all applications
2294	1-15-2013	1-15-2013	Enhancement	Insite	12.5.0	Added auto-import for TS applications, where any new prism imported into the database from external software would automatically be added to appropriate application and all related objects would be generated for such prism.
2296	1-17-2013	1-28-2013	Enhancement	Insite	12.5.0	Changed "Create CSV File" label in Appearance Group of Event Chart to "Output Type".
2297	1-17-2013	1-28-2013	Enhancement	Insite	12.5.0	Added H and W adjustments for JPEG Output of Event Chart.
2298	1-17-2013	2-4-2013	Enhancement	Insite	12.5.0	Convert Quick Report, Instrument Report and Custom Report to use PDF viewer for report preview and printing.
2299	1-17-2013	1-28-2013	Enhancement	Insite	12.5.0	Create actual JPEG's locally when running Event Chart and JPEG is selected as the Output Type.
2302	1-18-2013	1-18-2013	Enhancement	Insite	12.5.0	Added Orange color to quick chart series color configuration.
2306	1-24-2013	1-24-2013	Enhancement	Insite	12.5.0	Added trend lines to Quick View form
2307	2-23-2012	1-29-2013	Enhancement	Insite	12.5.0	Filter elements shown in Notification Alarms to just elements that have alarms configured.
2317	2-11-2013	2-11-2013	Enhancement	Insite	12.5.0	Added combo box to string properties in quick view filter, which contains all property values. User still can enter custom string with wildcards for filtering.

MultiLogger Suite Release Report

Release: 5.4.0

Completed Items

Number Entered	Completed	Type	Application	Version	Description	
2318	2-20-2013	2-20-2013	Enhancement	Insite	12.5.0	Moved Automatic Login above Password on database configuration form. Added Remember Password checkbox to login prompt.
2320	3-6-2013	3-6-2013	Bug	Insite	12.5.0	Insite would lock up trying to run DPlot output with no data.
2325	4-2-2013	4-2-2013	Bug	Insite	12.5.0	If project or instrument is not active, its content would still show up in the root of trees, though it should not.
2326	3-25-2013	3-25-2013	Enhancement	Insite	12.5.0	Applications management form can now be opened through clicking applications button on the toolbar.
2327	3-25-2013	3-25-2013	Enhancement	Insite	12.5.0	Application forms can now be opened from applications management form.
2328	4-2-2013	4-2-2013	Enhancement	Insite	12.5.0	Added automated outputs generation to applications. Outputs to generate can be defined on customization level for all TS applications, or for each TS application. Outputs can be created from template for each generated prism, or generated
2330	4-8-2013	4-8-2013	Bug	Insite	12.5.0	Event Viewer hint showed incorrect record count on large datasets.
2257	11-14-2012	11-14-2012	Bug	MLWeb	6.6.0	Fixed "Dataset not in edit or insert mode" error while running certain instrument reports
2267	11-14-2012	11-14-2012	Enhancement	MLWeb	6.6.0	Optimized performance of historical function calculations
2277	11-20-2012	11-20-2012	Enhancement	MLWeb	6.6.0	Changed default series coloring for charts, it used to color first dozen of series, all series above that would be gray. Now all of them will be colored.
2280	11-28-2012	11-28-2012	Enhancement	MLWeb	6.6.0	Removed nested historical function limitation in the calculation engine
