

MultiLogger Suite Release Report

Release: 5.5.0

Completed Items

Number Entered	Completed	Type	Application	Version	Description	
2348	7-24-2013	7-24-2013	Bug	MultiLogger	5.5.0	Fixed - after adding COM port node without changing port selection (leaving it to first default entry) empty port number would be written into configuration and MLGateway could not connect to this port
2355	8-30-2013	11-1-2013	Enhancement	MultiLogger	5.5.0	Improve performance and responsiveness of Terminal tab when used with CR2XX, CR800 and CR1000 in particular.
2358	9-13-2013	9-13-2013	Enhancement	MultiLogger	5.5.0	Added OPC data collection to VDL
2362	9-13-2013	11-1-2013	Enhancement	MultiLogger	5.5.0	Change menu items DB Import Folders Configuration to DB Import Configuration and DB Import Folder Status to DB Import Status
2166	4-15-2012	5-21-2013	Enhancement	MLGateway	5.5.0	Add support for timeout parameter in SerialOut command of Virtual Datalogger.
2240	8-1-2012	11-15-2013	Enhancement	MLGateway	5.5.0	Import battery voltage that is collected and stored in the CFG files for Reftek data collection attempts.
2331	5-20-2013	5-20-2013	Enhancement	MLGateway	5.5.0	License can be deactivated now even without connection to the licensing server. It produced an error before.
2350	7-1-2013	11-1-2013	Bug	MLGateway	5.5.0	Fix XModem downloads when file size > expected size.
2357	9-13-2013	9-13-2013	Enhancement	MLGateway	5.5.0	Added OPC data collection to VDL
2361	8-1-2012	11-15-2013	Enhancement	MLGateway	5.5.0	Import battery voltage that is collected and stored in the CFG files for MR2002 data collection attempts.
2356	9-12-2013	11-1-2013	Bug	CRProgGen	1.5.0	Add check to multiplexer code output to check for MuxConfig.Model = 'Virtual' so that control port code doesn't get output.

MultiLogger Suite Release Report

Release: 5.5.0

Completed Items

Number Entered	Completed	Type	Application	Version	Description	
1616	8-1-2008	10-2-2013	Enhancement	MLDatabase	9.6.0	Add Preview to Import Wizard to show view of data file with Import Wizard configuration applied. Show Project ID, Date/Time format and columns with parsed data (first 10 arrays?). Replace Save button with Next button to advance to file browse
1702	1-15-2009	11-1-2013	Bug	MLDatabase	9.6.0	Added icon overlay in all group views to indicate whether element is duplicated in other groups.
2333	5-20-2013	5-20-2013	Enhancement	MLDatabase	9.6.0	Added user-friendly error message when user is trying to delete data element with attached dynamic events.
2336	6-6-2013	6-6-2013	Enhancement	MLDatabase	9.6.0	Added "Remove connection" button to database configuration form
2359	9-18-2013	9-18-2013	Bug	MLDatabase	9.6.0	Fixed Reftek import: - added support for multiple events in single RTE file
2364	9-18-2013	11-08-2013	Bug	MLDatabase	9.6.0	Fixed bug with import of Inclinator data.
1703	1-15-2009	11-1-2013	Enhancement	Insite	12.6.0	Added icon overlay in all group views to indicate whether element is duplicated in other groups.
2334	5-20-2013	5-20-2013	Enhancement	Insite	12.6.0	User in design mode now can drag list of selected elements for the output and drop it on another output, it will replace all selected elements in the destination output with selected elements of source output. Essentially this allows copying of selected
2335	6-6-2013	6-6-2013	Enhancement	Insite	12.6.0	Added "Remove connection" button to database configuration form
2339	6-19-2013	6-17-2013	Enhancement	Insite	12.6.0	Added automation for alarms and notifications to Total Station application.
2341	6-19-2013	6-17-2013	Enhancement	Insite	12.6.0	Renamed Total Station application to 3D Data application and added GPS support to application.

MultiLogger Suite Release Report

Release: 5.5.0

Completed Items

Number Entered	Completed	Type	Application	Version	Description	
2342	6-27-2013	6-27-2013	Bug	Insite	12.6.0	Fixed - using copy filter in outputs could cause invalid historical formula calculations
2345	6-27-2013	6-27-2013	Bug	Insite	12.6.0	Fixed - average functions in calculations would produce errors for elements with names starting with number.
2349	8-6-2013	8-6-2013	Enhancement	Insite	12.6.0	Added highlighting to formula editor.
2353	8-9-2013	11-1-2013	Enhancement	Insite	12.6.0	Add "Type" option to Scaling group in Configure Quick Chart with selections of "Auto", "Fixed" and "Limited". Auto and Fixed replace existing radio buttons, Limited uses auto-scaling but limits the scale range to the Minimum and Maximum values that are
2354	8-14-2013	8-14-2013	Bug	Insite	12.6.0	Fixed: in Quick View trend lines would not calculate correctly if offset and/or aggregate was selected.
2360	9-18-2013	9-18-2013	Bug	Insite	12.6.0	Fixed the issue, where if on alarms and notifications forms group or output would be selected which would have same name with other group or output in the database, drop down could position on the wrong group or output.
1955	3-1-2011	10-2-2013	Enhancement	MLServer	7.6.0	Add scripting automation support including intervals and database support, for example to replace GeoMosImport or NOAA/USGS data import.
2332	5-20-2013	5-20-2013	Enhancement	MLServer	7.6.0	License can be deactivated now even without connection to the licensing server. It produced an error before.
2340	6-19-2013	6-17-2013	Enhancement	MLServer	7.6.0	Added automation for alarms and notifications to Total Station application.
2343	6-27-2013	6-27-2013	Bug	MLServer	7.6.0	Fixed - using copy filter in outputs could cause invalid historical formula calculations
2346	6-27-2013	6-27-2013	Bug	MLServer	7.6.0	Fixed - average functions in calculations would produce errors for elements with names starting with number.
